INQU 200. Directed Research. .5 - 6 Units.
Directed research activities under faculty supervision and with special
permission of the Associate Dean for Education.

INQU 202. ACE: Knowing the Patient. 1.5 Unit.
This ACE introduces the student to professional patient interaction
and evaluation in a simulated environment. Students will develop
interview techniques, learn patient appraisal skills, and techniques
for communicating effectively in a health care environment. Students
will experience patient interviews and assessment in a simulated
environment with live patients.
