

COMMUNICATION FOR HEALTH PROFESSIONALS, MINOR

Program Overview

The minor in communication for health professionals offers introductory and advanced study in theoretical and practical applications of communication within a health context. It includes a variety of additional courses that students can choose according to their specific areas of interest. The coursework is designed to appeal to students in such fields as pre-med, nursing, pre-law, public policy, public health, communication disorders, gerontological studies, nutrition, health management, and social work.

Undergraduate Policies

For undergraduate policies and procedures, please review the Undergraduate Academics section of the General Bulletin.
