

EARLY INTERVENTION DEVELOPMENTAL SPECIALIST, GRADUATE CERTIFICATE

Credential: Graduate Certificate

Field of Study: Early Intervention Developmental Specialist

Program Overview

An Early Intervention Developmental Specialist is a professional who is trained to work with individuals with disabilities by implementing strategies, curricula, and interventions, in addition to working with families to support child skill development. This Early Intervention (EI) certificate is for individuals who are interested in working with young children.

Graduate Policies

For graduate policies and procedures, please review the School of Graduate Studies section of the General Bulletin.
