

PSYCHOLOGY, MA

Degree: Master of Arts (MA)

Field of Study: Psychology

Program Overview

The Department of Psychological Sciences offers a full-time program leading to a Master of Arts in Psychology. Students interested in working with very young children would be ideal for this program, which prepares students to qualify for an Early Intervention Services Certificate (Developmental Specialist) through the Ohio Department of Developmental Disabilities. The department's MA program in Psychology is an applied program that provides students with the skills and practical experience they need to work in early intervention with children aged 0 to 5.

Graduate Policies

For graduate policies and procedures, please review the School of Graduate Studies section of the General Bulletin.

Program Requirements

Degree requirements include the completion of 38 credit hours of course work and placements, with 13 of these credit hours fulfilling the requirement of the Ohio Early Intervention Services Certificate. Students will be given opportunities to train in multiple placement sites, including hospital, school, and clinical settings. For more information, please visit the Department of Psychological Sciences website.
