ELECTRICAL ENGINEERING, MINOR

Program Overview

The electrical engineering minor equips students with fundamental skills in circuit design, signals and systems analysis, computer logic, and electromagnetic theory.

Undergraduate Policies

For undergraduate policies and procedures, please review the Undergraduate Academics section of the General Bulletin.

Program Requirements

Students enrolled in degree programs other than Electrical Engineering can earn a minor in electrical engineering by completing the following courses:

Code	Title	Credit Hours
Required Courses:		
ECSE 245	Electronic Circuits	4
ECSE 246	Signals and Systems	4
ECSE 281	Logic Design and Computer Organization	4
ECSE 309	Electromagnetic Fields I	3
Approved Technical Elective		3
Total Credit Hours		**18**
