

# SUPPLY CHAIN MANAGEMENT, MINOR

## Program Overview

Supply chain management coordinates the flow of goods and information from raw materials to finished goods. The global supply chain management industry is growing, and as a result, so is the demand for professionals in this field. By pursuing a minor in supply chain management, students will strengthen their understanding of global supply chain challenges and opportunities. Students will select courses that teach them about the production, transportation, distribution and other logistics that companies utilize to meet the demands of their customers.

Offered through the Weatherhead School of Management, this minor is available to all undergraduate students at CWRU. Typical undergraduate majors include: Engineering, Statistics, Computer Science, Data Analytics, Economics, Mathematics, Business.

## Undergraduate Policies

For undergraduate policies and procedures, please review the Undergraduate Academics section of the General Bulletin.
