

POST-MSN CERTIFICATION

Credential: Post-MSN Certification

Field of Study: Various (see Master of Science in Nursing, MSN page for list of majors)

Program Overview

Post-master's certificates can be provided for most MSN majors and are crafted according to individual needs and background education.

A gap analysis will be done upon admission to the Post-master's certificate program. The completed gap analysis will outline the required individualized program plan based on the MSN major chosen, prior education and other certifications.

Program Requirements

Post-master's certificate completion requirements are individualized based on the gap analysis completed after admission to the program.

The results of the gap analysis are used to develop an individualized program plan and are based on the MSN major chosen, prior education and other certifications. The gap analyses and the post-master's certificate completion requirements are based on the MSN degree program requirements. Post-master's certificate students should refer to the MSN program requirements and their individual approved program plan for program completion requirements.
